

Island Falls Free-Wheelers ATV Club 2022 Year in Review

2022 brought about a change in a new law on ATV's width and weight.

The Island Falls Free-Wheelers and Big Valley Sno club did a combined landowner appreciation supper which was a success we had over 70 landowners/business members attend.

Iam's day was another huge success. We also hosted a remembrance day for one of the clients that had passed suddenly.

Steak Supper that was put on during the 150th town celebration was another huge success. We should be thinking of putting another one on this summer during summerfest.

Looking at some town land off of Walker Settlement Road to put a park and ride. The Walkers will do all the work we only need to pay for fuel.

Christmas party was small but had a great time.

We took a class this winter on municipal grant writing in order to put in for more money from the state. It's a 90/10 match we only have to pay 10% of the total cost, which can be in kind service, donations, etc.

A lot has been going on with ATV Maine throughout the year. We have hired a new lobbyist which is working out much better than the present one. We are getting our name out there for clubs to

know about us and what we are trying to do for clubs. Have 3-4 sportmans shows that we will be attending.

We are hosting a Winterfest Breakfast on March 18th from 7-9 there will be lots going on that day along with log driver's cookout with beans, potato salad, hotdogs, donuts and coffee. Games, chili cookoff, boucehouse, snow sculpting, etc.
